**Each person takes a share, and
nobody always gets the same job**

The occasion: _____

The big day: _____

PRINCIPLES

What fair means

Sharing is counted in points, not in hours or roles.

Weight	What it means	Example
1 point	A quick task, 20 minutes or less	Air out the rooms
2 points	A medium task, 21 to 40 minutes	Sort out a cupboard
3 points	A long or physical task, over 40 minutes	Wash all the windows

- ☐ Each person gets a total of points close to the others.
- ☐ Unpleasant tasks rotate: nobody always does them.
- ☐ A light task changes hands every week.
- ☐ Children do short, safe tasks, with no windows, heights, electricity or products; an adult takes on an equivalent weight.
- ☐ No task is tied to a role: it is tied to an area.
